

Pietra lavica smaltata, enamelled lava stone

Palladiana

Pietra lavica
Lava stone

Pietra lavica smaltata
Enamelled lava stone

Base in metallo nero forgiato con finitura con vernice trasparente opaca.

Varianti piano spessore 2 cm: **Palladiana (94-96% marmo, 4-6% resina), pietra lavica e pietra lavica smaltata colore turchese.** La pietra lavica è estratta alle pendici del vulcano Etna, con finitura occhio di pernice, porosa e bucherellata, con olio protettivo idrorepellente. Il basalto etneo è un materiale resistente e si presenta con un colore scuro e uniforme la cui origine è legata al processo di raffreddamento delle colate laviche.

Eventuali imperfezioni presenti non sono da considerarsi difetti. I piani variano visibilmente in quanto realizzati con materiali naturali; tutte le immagini sono puramente indicative.

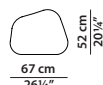

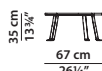

Base in black forged metal with clear matte enamel finish.

2 cm thickness top versions: **Palladiana stone (94-96% marble, 4-6% resin), lava stone and turquoise colour enamelled lava stone.** Lava stone is extracted on the slopes of Etna volcano, "occhio di Pernice" finish, porous and perforated, with water-repellent protective oil protection. The Etnean basalt is a tough material and shows a dark and uniform colour, whose origin is connected to the cooling process of lava flows.

Any blemishes, that are attributable to the naturalness of stones, are not to be considered as defects. Top surfaces visibly vary as they are made with natural materials; all pictures are just a rough guide.

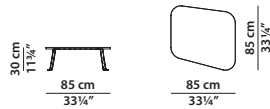

67 x 52 h35 | 0,25 m³

Tavolino. Small table.

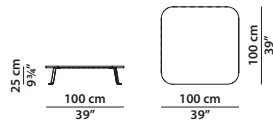

85 x 85 h30 | 0,35 m³

Tavolino. Small table.

100 x 100 h25 | 1,45 m³

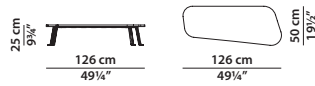

Tavolino. Small table.

126 x 50 h25 | 0,75 m³

Tavolino. Small table.

Disponibile solo in Palladiana o pietra lavica.
Available in Palladiana or lava stone only.
